EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Garth on June 9, 2006.

1. The application has been amended as follows:

Claims:

In Claim 88, line 3, insert -- providing pages having corresponding first edges and being bound together at the first edges by connectors -- after "waterproof book containing the information;"

In line 4, insert -- threading the loop through the connectors; -- after "said book to a loop;"

Allowable Subject Matter

2. Claims 65 and 88-123 are allowed.

The following is an examiner's statement of reasons for allowance: No prior art of reference discloses or fairly suggest a wearable book or a method for consulting information comprising: a plurality of pages having information; connected by connectors to a loop; the loop adapted for encircling a first body portion; wherein the loop has 50% elasticity for stretching the loop over a second body portion having larger circumference than the first body portion; wherein the pages having corresponding first edges and being bound together at the edges by the connectors; and further threading the loop through the connectors.

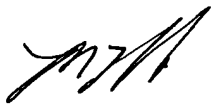

The Swartz reference is the closest reference to read on applicant's invention. However, Swartz does not comprise at least two spaced apart connectors bound at the first edge of a book, and a method of threading the loop through the connectors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
